

CARAVAN

Passenger Conversion: Interior Kit

FAA / PMA Approved (STC ST00026AT)

This STC is applicable to the Cessna 208, 208A and 208B

Enhance Passengers' Amenities

To further enhance the Passenger Conversion Kit, you can add these features:

- Passenger heating system which is connected directly to the existing heating system in the forward cabin and installed along the floor
- Passenger ventilation system features individual ceiling mounted Wemac Air vents
- Up to nine (9) passenger reading lights can be installed along the ceiling
